Notren trading- import and export c.c.

Notren Trading has been in import and export for 10 years. Trading with the intention of supplying only the best quality available, at the best prices possible, Notren has built up a solid foundation of trust and mutual satisfaction with our expanding customer base. The company's original intention was to supply our African neighbours with fresh produce in the way of fruit and vegetables.

Based in beautiful Cape Town, South Africa, Notren Trading has access to the highest quality fruit and flowers produced in South Africa. Over the years, many requests to export other products have been made to us, and consequently our product list has grown and is still growing, in order to fulfill the needs of new customers.

Notren has grown steadily over the years, and is now able to offer a much wider range of goods to a much broader market. In recent times we have expanded to include supply to both the African, Middle Eastern and Indian Ocean markets.

We have more than 30 years experience in the growing and marketing of fresh produce. Our business premise is based on honesty and integrity and our wish is to grow our company on a solid foundation of respect between ourselves, our growers/suppliers and our customers. We fully believe in personal communication with all our customers and our aim is to establish long term business relationships on a mutually beneficial basis with them.

## Mission

Our mission is to continue supplying our customers with superior quality fresh fruit, flowers, vegetables and any other of our products, and to always be flexible to their demands. Our markets are specialised and therefore we want to grow our company only to a level whereby we can continue supplying our clients to their fullest satisfaction.

Further we want to establish our company as a leader in the supply of fresh and other products into the African, Middle Eastern and Indian Ocean Islands, and this can only be achieved through commitment and to the honesty of all parties involved.
